

LOS ALAMOS

COMMUNITY FOUNDATION

Connecting our Community through Enduring Philanthropy

2022 IMPACT REPORT

Welcome, and thank you for taking a few moments to learn about the Los Alamos Community Foundation. We are a young but growing organization, and our impact in the community is increasing every year.

On the following pages are highlights of our work during FY2022 (July 2021 -June 2022). As you review the document, we encourage you to reflect on what can be accomplished through generous giving, and the impact that collective and committed philanthropy can have on the future of Los Alamos.

Our local nonprofit organizations do so much for the community. From providing essential care and services to enhancing our lives through the countless educational, recreational and enrichment opportunities that make Los Alamos the wonderful place that it is. Our core mission at LACF is to build stability and resiliency in our community by empowering our nonprofit organizations to address the needs of today and the unknown challenges of tomorrow.

Through local programming and grants, we support our nonprofits and strengthen the bonds of community. This cannot be achieved without the generosity of our community members. During this holiday season, as you count the many blessings that Los Alamos provides, we ask you to consider giving to a local nonprofit organization that has made an impact on your life or the lives of your loved ones. Together we can help ensure that Los Alamos remains a great place to live, for everyone here, for years to come.

Supporting Our Nonprofits

We are closer to becoming a more formal vocational training center. It would not have been possible without the LACF grants we've received.

- Prisca Tiasse, Executive Director
Los Alamos Makers

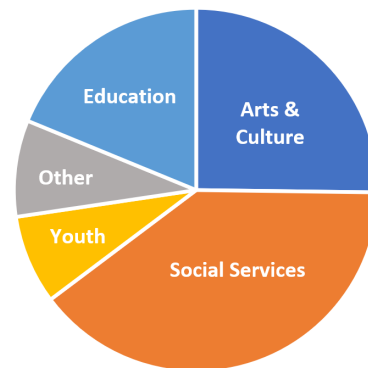

LACF funding has been catalytic. Since establishing our program at the BeeHive in White Rock we've started a second program at Sombrillo.
